

QC500N Clocking in Machine - Time Change Instructions

Step 1 - To begin Open the top of the machine using the key supplied:

Step 2 - Next turn the setup switch into the on position (move it to the right):

Step 3 - The LCD will show b000 - press enter to continue. Press **Enter** or **Back** to enter the program Code **04**.

Now use the + and - buttons to change the Hour. When you have the correct hour showing, press Enter (repeat for Minutes if needed) and turn the setup switch back to the off position (move it to the left). The clock should now be showing the correct time.
